

# Freeride val d'Hérens

## Free-riding in Switzerland's Hérens Valley - Let the pros take you (way!) off the beaten track

Switzerland's Hérens Valley is widely considered to be one of the most unspoiled valleys in Switzerland. A picture-postcard of traditional villages and superb glacier-clad mountains like the Matterhorn and the Dent Blanche, the Val d'Hérens is worlds apart from the enormous ski-factory resorts that have squeezed nature out in other areas of the Alps. Here, nature is enormous, inviting, and largely untouched. Let us take you out there, on guided free-ride and backcountry tours in :

Evolène

Arolla

Nax

Thyon-Verbier-4 Vallées

### Your basecamp - Evolène

We offer lift-assisted backcountry day-tours that feature some of the best —and least-known— glades, bowls and couloirs in the Valley. We choose our starting points from among several small local ski areas, depending on conditions, and from there we head off into our favorite secret backside runs.

Our local guides' expert knowledge, both of the Hérens terrain and recent weather and snow conditions, means you can be assured of an unforgettable backcountry experience. And no crowds!!

### Evolène – freeride facing the Dent-Blanche

## Arolla

## Nax – skiing between the trees
